

CHAPTER XIII

ZONING

13-1 TITLE, PURPOSE AND INTERPRETATION.

13-1.1 Title. This chapter shall be known as “The Zoning Ordinance of the Borough of Harvey Cedars.” (Ord. No. 2001-02 § 1)

13-1.2 Interpretation.

- a. For the purpose of consolidation, codification and revision, the Zoning Ordinance of the Borough, the title of which is set forth in the title hereof, and the various amendments thereof and supplements thereto, are further amended, consolidated and revised as herein provided.
- b. In their interpretation and application, the provisions of this chapter shall be held to be the minimum requirements, adopted for the promotion of the public health, safety, morals, comfort, prosperity and general welfare. It is not intended by this chapter to repeal, abrogate, annul or in any way impair or interfere with any existing provisions of law or ordinance or with any rules, regulations or permits previously adopted or issued or which shall be adopted or issued pursuant to law relating to the uses of building or land, or with any private restrictions placed upon a property by covenant or deed; provided that where this chapter requires a greater width of size, or yards, courts or other open spaces, or requires a greater percentage of lot to be left unoccupied, or imposes restrictions more extensive than are required by any other statute or local ordinance or regulation, the provisions of the regulations in this chapter shall govern. (Ord. No. 2001-02 § 1)

13-1.3 Purpose. This chapter is adopted for the purpose of promoting health, safety, morals, general welfare, securing safety from fire, flood, and other dangers, preventing the overcrowding of land or buildings, and with the view of conserving the value of property and encouraging the most appropriate use of land and buildings within the Borough. (Ord. No. 2001-02 § 1)

13-1.4 Applicability of Zoning Regulations. In applying the provisions of this chapter, a departure from the literal requirement shall not be considered a violation if, in the opinion of the Zoning Officer, the departure is minimal and necessary to meet safety needs and current code. (Ord. No. 2016-15 § 1)

13-2 ZONING MAP.

13-2.1 Adopted by Reference. The Borough is hereby divided into zones, or districts, as shown on the Official Zoning Map which, together with all explanatory matter thereon, is hereby adopted by reference and declared to be a part of this chapter. (Ord. No. 2001-02 § 1)

13-2.2 Official Zoning Map. The official zoning map shall be identified by the signature of the Mayor attested by the Borough Clerk, and bearing the seal of the Borough under the following words: “This is to certify that this is the Official Zoning Map referred to in Ordinance Number 66-4 of the Borough of Harvey Cedars, New Jersey”, together with the date, July 16, 1966. (Ord. No. 2001-02 § 1)

13-2.3 Changes in Zoning Map. If, in accordance with the provisions of this ordinance and R.S. 40-55-30, supplements thereto and amendments thereof, changes are made in district boundaries or other matter portrayed on the Official Zoning Map, such changes shall be made of the Official Zoning Map promptly after the amendment has been approved by the Mayor and Commissioners, together with an entry on the Official Zoning Map as follows: “On (date), the official action of the Mayor and Commissioners, the following change(s) were made in the Official Zoning Map; (brief description of nature of change(s),” which entry shall be signed by the Mayor and attested by the Borough Clerk. The amending ordinance shall provide that such changes or amendments shall not become effective until they have been duly entered upon the Official Zoning Map. No amendment to this ordinance which involves matter portrayed on the Official Zoning Map shall become effective until after such change and entry has been made on the Map.

No changes of any nature shall be made in the Official Zoning Map or matter shown thereon except in conforming with the procedures set forth in this chapter. Regardless of the existence of purported copies of the Official Zoning Map, which may be made or published, the Official Zoning Map which shall be located in the office of the Borough Clerk shall be the final authority as the current zoning status of land and water areas, buildings, and other structures in the Borough. (Ord. No. 2001-02 § 1)

13-2.4 Replacement of Official Zoning Map. In the event that the Official Zoning Map becomes damaged, destroyed, lost, or difficult to interpret because of the nature or number of the changes and additions, the Borough Commissioners may by resolution adopt a new Official Zoning Map which shall supersede the prior Official Zoning Map. The new Official Zoning Map may correct drafting or other errors or omissions in the prior Official Zoning Map but no such correction shall have the effect of amending the original zoning ordinance or any subsequent amendment thereof. The new Official Zoning Map shall be identified by the signature of the Mayor attested by the Borough Clerk, and bearing the seal of the Borough under the following words: This is to certify that this Official Zoning Map supersedes and replaces the Official Zoning Map adopted (date of adoption of map being replaced) as part of Ordinance Number 66-4 of the Borough of Harvey Cedars, New Jersey. (Ord. No. 2001-02 § 1)

Yard abutting public streets shall mean required yard abutting public streets to be measured in the following manner. A straight line shall be drawn between two (2) points at which lot lines intersect street lines on any face of the lot. Where property corners are rounded, such points shall be plotted by projecting lot lines to the point where they would have met the street line without rounding. Depth of required yards abutting public streets shall be measured perpendicular to such straight lines, and the inner line of such required yards shall be parallel to the outer line so established.

In any such required yard abutting a public street, no fence, wall, or hedge shall be permitted which materially impedes visibility across such yard between a height of twenty-four (24) inches and eight (8) feet. (Ord. No. 2016-15 § 2)

Depth of required rear yard shall be measured in such manner that the yard established is a strip of the minimum width required by district regulations with its inner edge parallel with the rear lot line. (Ord. No. 2001-02 § 1)

- c. Boundaries indicated as following ocean shorelines shall be construed to follow such shorelines, and in the event of change in the shoreline, shall be construed as moving with the actual shoreline; boundaries indicated as following shorelines other than along ocean shall be construed to follow the exterior pier headline established by the Bureau of Navigation of the State of New Jersey.
- d. Boundaries indicated as parallel to or extensions of features indicated in paragraphs a. through c. above shall be so construed. Distances not specifically indicated on the Official Zoning Map shall be determined by the scale of the map.
- e. Where physical or cultural features existing on the ground are at variance with those shown on the Official Zoning Map, or in other circumstances not covered by paragraphs a. through d. above, the Board of Adjustment shall interpret the district boundaries.
(Ord. No. 2001-02 § 1)

- a. No building, structure or land shall hereafter be used or occupied, and no building or structure or part thereof shall hereafter be erected, constructed, reconstructed, moved, or structurally altered unless in conformity with all of the regulations herein specified for the district in which it is located.
- b. No building or other structure shall hereafter be erected or altered:
 1. To exceed the height;
 2. To accommodate or house a greater number of families;
 3. To occupy a greater percentage of lot area;
 4. To have narrower or smaller rear yards, front yards, side yards, or other open spaces; than herein required; or in any other manner contrary to the provisions of this chapter.

- c. No part of a yard, or other open space, or off street parking or loading space required about or in connection with any building for the purpose of complying with this chapter, shall be included as part of a yard, open space, or off street parking or loading space similarly required for any other building.
- d. No yard or lot existing on July 16, 1966 shall be reduced in dimension or area below the minimum requirements set forth herein. Yards or lots created after July 16, 1966 shall meet at least the minimum requirements established by this chapter.
- e. All territory which may hereafter be annexed to the Borough shall be considered to be zoned in the same manner as the contiguous territory inside previous Borough limits until otherwise classified.
(Ord. No. 2001-02 § 1)

13-5 NONCONFORMING LOTS, NONCONFORMING USES OF LAND, NONCONFORMING STRUCTURES, AND NONCONFORMING USES OF STRUCTURES AND PREMISES.

13-5.1 Intent. Within the districts established by this chapter or amendments that may later be adopted there exist lots, structures, and uses of land and structures which were lawful before this chapter was passed or amended, but which would be prohibited, regulated, or restricted under the terms of this chapter or future amendment.

It is the intent of this chapter to permit these nonconformities to continue until they are removed, but not to encourage their survival. Such uses are declared by this chapter to be incompatible with permitted uses in the districts involved. It is further the intent of this chapter that nonconformities shall not be enlarged upon, expanded or extended, not be used as grounds for adding other structures or uses prohibited elsewhere in the same district. (Ord. No. 2001-02 § 1)

13-5.2 Extension. A nonconforming use of a structure, a nonconforming use of land, or a nonconforming use of a structure and land shall not be extended or enlarged after July 16, 1966 by attachment of a building or premises of additional signs intended to be seen from off premises, or by the addition of other uses of a nature which would be prohibited generally in the district involved. (Ord. No. 2001-02 § 1)

13-5.3 Construction Previously Approved. To avoid undue hardship, nothing in this chapter shall be deemed to require a change in the plans, construction, or designation use of any building on which actual construction was lawfully begun prior to July 16, 1966 or date of amendment of this chapter and upon which actual building construction has been diligently carried on. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner; except that where demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such demolition or removal shall be deemed to be actual construction, provided that work shall be diligently carried on until completion of the building involved. (Ord. No. 2001-02 § 1)

13-5.4 Nonconforming Lots of Record. In any district in which single-family dwellings are permitted, notwithstanding limitations imposed by other provisions of this chapter, a single-family dwelling and customary accessory buildings may be erected on any single lot of record on July 16, 1966, or date of amendment of this chapter. Such lot must be in separate ownership and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area or width, or both, that are generally applicable in the district, provided that yard dimensions and other requirements not involving area or width, or both, of the lot shall conform to the regulations for the district in which such lot is located. Variance of area, width, and yard requirements shall be obtained only through action of the Board of Adjustment. (Ord. No. 2001-02 § 1)

13-5.5 Nonconforming Lots of Single Ownership. If two (2) or more lots or combinations of lots and portions of lots with continuous frontage in single ownership are of record on July 16, 1966 or date of amendment of this chapter, and if all or part of the lots do not meet the requirements for lot width and area as established by this chapter, the lands involved shall be considered to be an undivided parcel for the purposes of this chapter, and no portion of the parcel shall be used or sold which does not meet lot width and area requirements established by this

chapter, nor shall any division of the parcel be made which leaves remaining any lot with width or area below the requirements stated in this chapter. (Ord. No. 2001-02 § 1)

13-5.6 Nonconforming Uses of Land. Where, on July 16, 1966, or date of amendment of this chapter, lawful use of land exists that is made no longer permissible under the terms of this chapter as enacted or amended, such use may be contained so long as it remains otherwise lawful, subject to the following provisions.

- a. No such nonconforming use shall be enlarged or increased, nor extended to occupy a greater area of land that was occupied on July 16, 1966 or the date of amendment of this chapter;
- b. No such nonconforming use shall be moved in whole or in part to any other portion of the lot or parcel occupied by such use on July 16, 1966 or date of amendment of this chapter;
- c. If any such nonconforming use of land ceases for any reason for a period of more than twelve (12) months, any subsequent use of such land shall conform to the regulations specified by this chapter for the district in which the land is located.
(Ord. No. 2001-02 § 1)

13-5.7 Nonconforming Structures. Where a lawful structure exists on July 16, 1966 or the date of amendment of this chapter that could not be built under the terms of this chapter by reason of restrictions on area, lot coverage, height, yards, or other characteristics of the structure or its location on the lot, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

- a. No such structure may be enlarged or altered in a way which increases its nonconformity;
- b. Should the structure be destroyed by an act of God, or a natural disaster, it may be rebuilt to the extent it existed prior to its destruction, otherwise, it shall not be reconstructed except in conformity with the provisions of this chapter; subject, however, to the further provision that any such structure must be so reconstructed within one (1) year from the date of its destruction. If a nonconforming structure is demolished purposely then any replacement structure shall conform to all current zoning ordinances.
- c. Should the structure be moved for any reason for any distance whatsoever, it shall thereafter conform to the regulations for the district in which it is located after it is moved. (Ord. No. 2001-02 § 1)

13-5.8 Nonconforming Uses of Structures. If a lawful use of a structure, or of structure and premises in combination, existed on July 16, 1966, or on the date of amendment of this chapter, that would not be allowed in the district under the terms of this chapter, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

- a. No existing structure devoted to a use not permitted by this chapter in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located;

- b. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use on July 16, 1966 or of amendment of this chapter, but no such use shall be extended to occupy any land outside such building;
- c. If no structural alterations are made, any nonconforming use of a structure, or structure and premises, may be changed to another nonconforming use provided that the Board of Adjustment, either by general rule or by making findings in the specific case, shall find that the proposed use is equally appropriate or more appropriate conditions and safeguards in accord with the provisions of this chapter;
- d. Any structure, or structure and land combination, in or on which a nonconforming use is superseded by permitted use, shall thereafter conform to the regulations for the district in which such structure is located, and the nonconforming use may not thereafter be resumed;
- e. When a nonconforming use of a structure, or structure and premises in combination, is discontinued or abandoned for twelve (12) consecutive months or twenty-four (24) months during any three (3) year period, the structure, or structure and premises in combination, shall not thereafter be used except in conformance with the regulations of the district in which it was located;
- f. Where nonconforming use applies to a structure and premises in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land.
(Ord. No. 2001-02 § 1)

13-5.9 Repairs and Maintenance. On any building devoted in whole or in part to any nonconforming use, work may be done in any period of twelve (12) consecutive months on ordinary repairs, or on repair or replacement of nonbearing walls, fixtures, wiring, or plumbing, provided that the cubic content of the building as it existed on July 16, 1966 or amendment of this chapter, shall not be increased.

Nothing in this chapter shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official. (Ord. No. 2001-02 § 1)

13-13 LC, LIMITED COMMERCIAL DISTRICT.

13-13.1 Intent. It is recognized that the area encompassed by this district is suitable for commercial development by virtue of its existing development characteristics predominantly commercial. The high density of population in this section of the community and the frontage of the district on Long Beach Boulevard further contribute to its suitability for commercial development. However, it is also recognized that the land immediately to the east of that fronting the boulevard is ideal for residential development due to its proximity to the ocean and, for the same reason, there is considerable pedestrian traffic moving to and from the beach along the streets lying east of the boulevard. This district is being created in order to permit commercial uses to develop fronting the boulevard but not to encourage them to generate traffic along the streets leading to the ocean, which will pose a potential danger to pedestrian traffic and which could devalue residential properties lying east of this district.
